

Foot Measuring Instructions

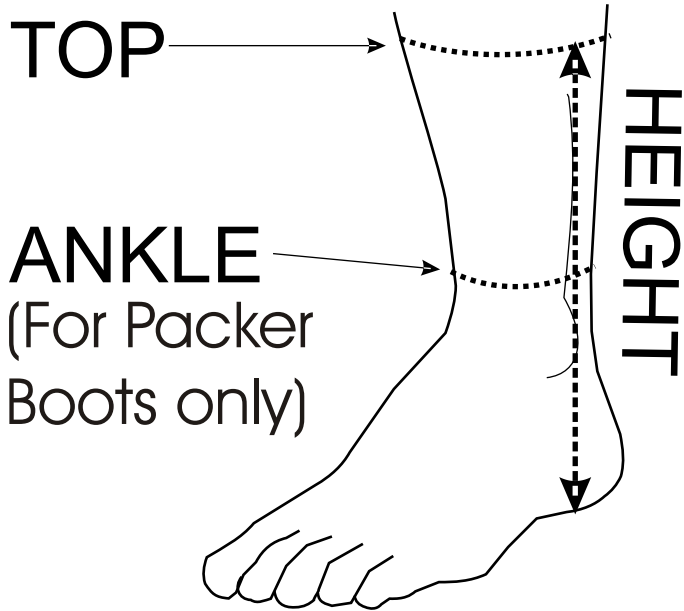

While wearing the kind of socks you plan to wear with boots, kneel or sit and place your right foot on the order blank where indicated. Then take a **pencil** and **while holding it straight up** make a mark around the entire outside of you foot (outline). Try to do this in one sweep for as accurate a single line as possible.

NOTE: If you are ordering a tall boot please also give us a measurement around the thickest part of your calf.

Do you wear your pants inside or outside of your boots? Inside ____ Outside ____

Instructions

Sizes on an internet Foot Chart cannot be displayed properly because of distortion from different browser settings and printer margins.

With custom shoes it does not matter if the size marker is right. So long as you carefully draw your foot and measure correctly.

Use a **pencil** (in case you have to erase) and **while holding it straight up**, draw a line around the entire outside of you foot. Try to do this in one sweep for as accurate a single line as possible

.

Right Foot

If your feet are different sizes use the other side of this page to draw your **left foot**.

TOES

Tape more paper to the top of this page if needed.
